**FROM HEAD TO FOOT**

you feel the good that's done by Doctor Pierce's Golden Medical Discovery. It cleanses, regulates and invigorates Stomach, Liver and Bowels and so purifies the blood. And through the blood, it cleanses, repairs, and invigorates the whole system.

In recovering from "grippe," or in convalescence from pneumonia, fevers, or other exhausting diseases, nothing can equal it as an appetizing, restorative tonic to build up needed flesh and strength. It rouses every organ into natural action, promotes all the bodily functions, and restores health and vigor.

For every disease that comes from foul or Weak Stomach, a torpid Liver or impure Blood, Dyspepsia, Indigestion, Biliousness, and the most stubborn Skin, Scalp, or Scrofulous affections, the "Discovery" is a sovereign remedy. Don't be hypnotized, wheedled, or over persuaded into accepting a substitute only that some selfish medicine seller may make a greater profit on the inferior article. The "Discovery" has a great record of nearly forty years with thousands of cures behind it.

*Dear Sir*—Several years ago my blood became impoverished and I became run down in health. I had no appetite, could not sleep, and was practically unfitted for work. Suffered from innumerable boils and was in bad shape. Dr. Pierce's Golden Medical Discovery relieved me of my wretched condition. The medicine built up my system and restored me to a normal condition of health. I can speak most highly also, of Dr. Pierce's Favorite Prescription, as it has been used in my family for years in cases of female trouble.

GOT HIS HAIR BACK.

**Was Perfectly Bald When He Started to Use Newbro's Herpicide.**

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '29, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 29 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

### Wanted to Burn Negro.

Men and women worked up into a frenzy of excitement yesterday afternoon clamored for the life of a negro and fought determinedly with a squad of Philadelphia policemen to gain possession of their prisoner. Bricks, stones and clubs were hurled at the officers and scores of angry men made frantic efforts to break through the police line in order to wreak vengeance on the prisoner, who was accused of assaulting a 4-year-old girl.

The negro's name is Joseph Stanley. He hails from Boston, but is employed as cook on a steamship now at Philadelphia. Stanley came ashore yesterday morning and at Second and Spruce streets approached several small children. He offered to buy them candy and ice cream if they would accompany him. One of the children, Marie Schwartz, 4 years old, said she would go, and Stanley led her off. The other children suspected all was not right and told Marie's mother.

Mrs. Schwartz dropped her household work at once and ran to the place where the negro and the child were last seen together, but they had disappeared. Unable to find them, the distracted mother went to the Delancey street station house and reported the matter to the police. Stanley was soon located by Policeman Frederick in an outhouse at Second and Spruce streets. The negro still had the child in his possession. Frederick locked them in and summoned the patrol wagon. Before it arrived the crowd who had joined the mother in her search learned of the capture and dashed upon the scene.

Frederick stood guard over his prisoner, but the men and women, who numbered hundreds, had been worked up into a frenzy at the horrible outrage and demanded that he surrender Stanley to them that they might kill him.

Frederick stood his ground, and as the crowd grew in numbers and their frenzy increased he prepared to defend himself. The wagon arrived just as a concerted rush was made for him and his brother officers were compelled to fight their way to him. In the struggle Frederick's clothing was torn to shreds and he was badly beaten. He fought courageously and protected his prisoner.

Someone cried: "Burn the nigger!" The cry was taken up and swelled to a great roar. It was with the utmost difficulty that Stanley was taken to the police station. Several times the crowd assaulted the policemen, and was finally cowed by pistol shots.

### Ramsey Removed.

Joseph Ramsey was yesterday removed from the presidency of the Wabash Railroad Company at a special meeting of the board of directors held in New York. F. A. Delano was elected as his successor. Eight directors, including Mr. Ramsey, were present at the meeting.

Mr. Ramsey has been engaged in a contest with Mr. Gould for the control of the road. Mr. Ramsey, after the meeting, said his removal was entirely illegal, for the reason that the meeting had not been properly called. He made a protest before the board, saying that the by-laws required five days' notice for a special meeting of the board, and that the notices for this meeting were mailed only Wednesday night. His protest was overruled, however. President Delano took charge of his office at once. "Mr. Ramsey and I have always been friends hitherto in the railroad business," said he, "and I do not want to come into this controversy in any way. As to Mr. Ramsey's charge about the illegality of the meeting, I can say nothing; I am not a lawyer. But there were several good lawyers on the board at the meeting and I presume that they would not attempt anything illegal. It was the general understanding that this was an adjourned meeting."

When shown the dispatch from New York regarding the removal of Joseph Ramsey, jr., from the presidency of the Wabash Railway at the special meeting of the directors in New York, F. W. Lehmann, a St. Louis attorney, representing Mr. Ramsey in the application recently filed for a writ of temporary injunction against the holding of a meeting in Toledo, October 10, said: "This is certainly news to me. All I have to say at this time is that the action in New York yesterday will not in any way affect our action in St. Louis for an injunction. We will proceed just as had been decided upon."

Physicians were helpless, but Bucklen's Arnica Salve quickly healed it." Soothes and heals burns like magic. 25c at E. S. Leadbeater, & Sons, druggists

### REST AT LAST.

The way seems long to the weary feet,
But it leads at last where the shadows sweet
Fall in silence over the breast
In the beautiful valley of perfect rest,
"Rest for the weary"—the melody seems
To sing its way through a world's dim dreams!
The way seems long, and the flowers are few
That bloom for the wounded breast of you;
Yet we know, when the tears and toil are past,
We shall rest with the lilies of God at last!
With the lilies of God on brow and breast
In the beautiful valley of perfect rest.
Break, O tempests, in starless skies!
And drain, O tears, from the saddened eyes!
Evermore is the joy of the song:
"It will not be long—it will not be long!
There is balm for the weariest lives unblest
In the beautiful valley of perfect rest."
—Frank L. Stanton, in Atlanta Constitution.

AND VIRGINIA ADVERTISER

FRIDAY EVENING, OCT. 6, 1905.

GEN. GOMEZ, of Cuba, Governor of Santa Clara province, who withdrew as the liberal candidate for the presidency in opposition to President Palma, arrived in New York a day or two ago. An air of mystery, strengthened by the reserve of the general, his silence and his self-sought solitude surrounded his coming. But he told some of his friends that he left Cuba partly for rest, partly to relieve the political situation of embarrassment and partly to avoid the possibility of assassination. He was met on the pier by two Pinkerton detectives, who hovered near him, following him to his hotel, the New Amsterdam. The general appeared to be nervous. It is said that all the jails in Santa Clara province are filled with political prisoners. There has ever been unrest in Cuba. It cost Spain millions of dollars to keep down insurrections which eventually grew to proportions as to defy the mother country. The inhabitants pretended that they wanted a government of their own and when the United States wrested the island from Spain and allowed the Cubans to realize their dream the movement failed to bring contentment.

THERE ARE some big (?) men in Richmond nowadays. During a citizens' meeting on Wednesday night to consider plans for receiving and entertaining the President on his approaching visit to that city, the question was asked who in the city council were responsible for advertising to the world that Richmond had no caterer capable of serving the Roosevelt committee. One citizen replied that he did not think it a proper time to go into that matter. "But the time will come when it will be proper to inquire," said another. "It will be at the next election when the people will answer the question by declining to re-elect those who have acted in this way in the banquet matter." So it appears that in the capital city of the State a man's qualifications for councilman are to be judged by his preference between caterers for a public dinner.

PAT CROWE, who is under arrest at Butte, Montana, has made a confession that he and a "pal" once planned to kidnap John D. Rockefeller. It was their intention to hold him for $2,000,000 ransom. The plot went so far that Crowe went from Chicago, where the idea occurred to him, to Cleveland, and spent several days in sizing up the situation and making his plans. The rich man is menaced by many things in this world and (to add to his anxieties) is told that he will experience as much trouble in entering heaven as a camel would encounter in passing through the eye of a needle. Hence those burdened with wealth should incite commisseration instead of envy.

IN TESTIFYING before an investigating committee in New York concerning insurance methods, Mr. John A. McCall took particular care not to allude to the fact that, besides maintaining legislative lobbies at great expense, the company managers are quite vigilant in securing the appointment of State Superintendents and Commissioners of Insurance who do not superintendent and who make the most flattering reports. What prevents these insurance commissioners from performing their duties but the malign influence of such insurance presidents as Mr. McCall, who demurely deplores the extent to which the companies are blackmailed?

BEFORE the Sandwich Islands were annexed to the United States they were rightly called "the Paradise of the Pacific"—the blooming garden where nature was kindest to man. Now it is feared the islauds will come to be known as "Gehenna," or "Tophet," so far as white men are concerned. Since annexation to the United States the white population has rapidly decreased, while the "Yellow Peril" is more than imminent—it is present. The arrival of thousands of Japanese has driven out many American skilled laborers, both from Honolulu and the sugar plantations. This country seems to be unfortunate in its acquisitions.

THE Philadelphia Record says: Virginia appears to be about the only State in which there is any interest in national politics in this off year. Accordingly Representative John Sharp Williams has consented to make a few speeches in that State upon the legislative problems of the next Congress. He will then take occasion to reply to the rather obscure and equivocal utterances of Secretary Shaw on tariff revision.

THAT the Mutual Life Insurance Company has paid Robert H. McCurdy, son of its president, commissions of $1,705,681, and to McCurdy's son-in-law, $920,113, was brought out in the insurance investigation yesterday. The big insurance companies seem to have acted on the principle that an insurance office is a private snap.

DISTRICT ATTORNEY JEROME of New York, promises that the insurance scandals certainly will be submitted to an extraordinary grand jury. The session cannot be held too soon.

## From Washington.

Correspondence of the Alexandria Gazette.]

Dr. R. W. Wiley, chief of the bureau of chemistry, today submitted his report on observations in Europe on the manufacture of food products and preparation for export of beverages to Secretary Wilson of the Agriculture Department. He also noted the effect of the pure food law of this country, and reported that consumers here, assured of the purity and character of foreign products, are using them in greater quantities than ever before. Some of those Scotch whiskies still are obnoxious to the chief. "The British regulations," he says, "conserve carefully certain rights of the British consumer, but legalize any kind of manipulation whatever when the goods are to be sent on board ships or to foreign countries." He wants goods bottled in special warehouses for export, where any admixture for coloring may be added, excluded from our ports.

Congressman Burton, of Ohio, generally mentioned as possible chairman of the appropriations committee of the next House, called on President Roosevelt today, for a general talk, including the political situation in Ohio, the necessity of tariff legislation, and railroad rate question. Mr. Burton will leave for Ohio tomorrow to take part in the campaign. He opposes the Foraker view on railroad rate legislation, and will give expression to his own views from the platform. He is not convinced of the necessity of tariff or revenue legislation, as the financial conditions of the treasury are steadily improving. He is inclined to the view of Congressman McCleary that if additional revenue should be needed, a simple plan would be to place a duty on coffee. Mr. Burton says he has received no intimation that Speaker Cannon will put him at the head of the appropriations committee. As chairman of the river and harbors committee he is convinced that there will be no river and harbor bill next winter.

The appointment of Charles W. Russell, of Wheeling, W. Va., to be Assistant Attorney General, was announced at the Department of Justice this morning. He succeeds in this position Milton D. Purdy, who has been made Assistant to the Attorney General.

The President today appointed Alexander R. Mullowney judge of the police court of the District of Columbia. He has been one of the assistant district atterneys here.

At the Cabinet meeting this morning Secretary of Agriculture Wilson's proposition that the meat packers of the country be required to pay for the tags attached to inspected meat, received the approval of the President and his advisers. Heretofore the government has borne the expense of these tags, at a cost of about $75,000 a year. The money thus saved will be used to employ additional inspectors in order to make more thorough the work of meat inspection.

When the Supreme Court of the United States convenes Monday for the annual October term the chief justice and associate justices, all of whom bid fair to be present, will find a docket containing between 412 and 415 cases pending for argument. Between the opening and close of the term certain classes of appeals, principally those in which the government is interested, may be rushed up from the lower, and in cases where public interest demands a speedy adjudication the Attorney General and his people may ask for advancement in the docket of certain causes. In any event the court will probably reach about case No 260 when adjournment is taken next May, some 150 cases going over. The court is now about a year and a half behind, it taking at least a year after an appeal is filed for the case to be reached for argument. The opening argument Monday will be made in the original case of Louisiana against Mississippi over the ownership of the oyster beds east of the delta of the Mississippi, from which northern cities acquire most of their canvasback ducks and terrapin. Louisiana has possession and wants her title perfected. Another original case between States is the big powwow between Missouri and Illinois over the Chicago drainage canal. The Interstate Commerce Commission will have several appeals.

There has been a steady and progressive improvement in the health of the army, according to the annual report of Surgeon General O'Reilly, published by the War Department today. In the fiscal year ended June 30 last there were 406 deaths from all causes, equal to 6.75 per thousand, as compared with 8.64 for the previous year and 17:39 for the quinquennial period 1898-1902. Discharges for disability were 1,377, and the rate 22.90, as compared with 25.87 for the year 1904. The number of men constantly non-effective was 2,925.31, giving a rate of 49.80 as compared with 54.78 for last year.

Holding that the purpose is merely to sell "health—restoring" belts of doubtful value, the Postoffice Department today issued a fraud order against J. J. Durham, who did business under the name of Adrian Medical and Surgical Institute, Adrian Medico Surgical Institute. Dr. Durham's Remedy Company, Mrs. Dr. Durham, and Dr. Durham, all of Adrian, Michigan. The belts sold from $1.50 to $35 according to the amount patients would pay for them.

Further action by the State Department in the case of Wm. S. Albers, of Philadelphia, who is under arrest in Nicaragua charged with resisting the authorities, will be postponed until the arrival in this city of U. S. Consul Donaldson, formerly stationed at Managua, Nicaragua. Mr. Donaldson arrived at San Francisco yesterday and is expected here about the middle of next week. He was given his passports by the Nicaraguan government for interfering in Albers behalf.

An early morning fire at a junk yard at 11th and R streets this morning completely destroyed the place. Three horses were burned to death. A peculiar accident happened to No 9 engine. In turning the corner of 12th and U streets the boiler of the engine was imbedded in the water tug, putting it out of commission.

### Alarming Reports.

St. Petersburg, Oct. 6.—Alarming reports of threatened troubles at Astrakhan have been received here. Many revolutionists from Baku have arrived in that city, and they have adopted a menacing attitude. The authorities have all been threated with death if they oppose the wishes of the revolutionaries.

A portion of yesterday's session of the United Daughters of the Confederacy in San Francisco was devoted to memorial services. Tribute was paid to Mildred Lee, daughter of General Robert E. Lee, General Fitzhugh Lee, John H. Reagan, and the late United States Senator Wm. B. Bate. A reception was given yesterday afternoon by Jefferson Davis Chapter to the visiting delegates.

Inefficient officers are to be gradually weeded out of the Russian navy during the next five years and pensioned off to make way for better trained men to command the reconstructed navy. In a rescript addressed to the Minister of Marine, Emperor Nicholas directs him to compulsorily retire all naval officers who are unable to fulfill the higher requirements which the projected reforms in the service will demand.

The intention of the President to come back from New Orleans by sea, will undoubtedly revive the old agitation of the question of the right of the President of the United States to leave the territory of the United States during his term of office. There is no constitutional or statutory prohibition to this effect, but it has always been the unwritten law of all presidents from Washington down, to refrain from leaving the United States territory during their terms of office.

Secretary Shaw has decided to recommend the abandonment of eleven hospitals in the Marine Hospital Service now maintained at the expense of the Government. There are only twenty-three of these hospitals in the United States. As the recommendation cannot be carried on without the consent of Congress. Secretary Shaw declined for the present to say which hospitals he would have abandoned. He has ordered, however, that the work on the marine hospitals now being constructed at Pittsburg and Buffalo be suspended.

### Railroad Station Robbed.

Five burglars broke into the Pennsylvania Railraad Station at Havre de Grace about 3:30 o'clock yesterday morning, blew the safe to pieces with nitroglycerine, wrecked the office, and, after a pistol fight with Watchman Milton Baldwin, in which one of the outlaws was shot, made good their escape, without, however, securing any booty. Watchman Baldwin was attracted to the station by the terrific explosion. As he approached the building he saw five men run from it. One of the men carried the money box which was in the safe and which contained a small amount of money. Watchman Baldwin, who was armed with two revolvers, immediately opened fire upon the retreating men, who returned it with vigor. Not until Baldwin had discharged both of his revolvers, 10 shots in all, did the firing cease, and then the burgulars had disappeared. The man who carried the money box was hit by one of the bullets, for he dropped the box and cried "I'm shot!" Upon examining the box Baldwin discovered that one of his bullets had put a hole in it. Later in the morning an examination of the wrecked office and of the station building was made. It was found that the burglars had gained entrance to the building by picking the lock of the door leading to the women's waiting room. They then found their way to the ticket office. It was their evident intention to set the building on fire after committing robbery, as a large portion of the office floor was discovered to be saturated with coal oil. The ticket office is a wreck.

### McClellan Nominated.

Mayor George B. McClellan last night was renominated for Mayor of New York city for the four years' term beginning January 1 next by the democratic city convention or Tammany Hall organization. Mr. McClellan is now rounding out his first term of two years, the State legislature having recently amended the city charter so as to provide for a four years' tenure of office for officials of greater New York.

The Tammany convention was held in Carnegie Hall amid great enthusiasm.

Mr. McClellan was the only member of the present administration renominated, the ticket named by the convention being as follows:

For mayor—George B. McClellan, of Manhattan.

For comptroller—Herman A. Metz, of Brooklyn.

For President of the Board of Aldermen—Patrick M. McGowan, of Manhattan.

Mr. Metz is named to succeed Comptroller E. M Grout and Mr. McGowan to succeed President Charles B. Fornes. Mr. Fornes presided at last night's convention.

The platform adoption by the convention was particularly strong in favor of municipal ownership. Harmony was the chief feature of the convention.

### Bishop Denies Report.

"I expect to live and die in Richmond," said Bishop Van de Vyver yesterday morning in reply to a query if he had heard anything from Rome in reference to his appointment as successor to Mgr. Chappelle as Archbishop of New Orleans. The story is supposed to have grown out of the mere suggestion that the honor might fall to him. Rev. Dr. Joseph Magri, who landed in Boston Monday from his European tour, arrived in Richmond yesterday morning. Dr. Magri is much improved by his trip and has gained much flesh during the summer. Dr. Magri accompanied Bishop Van de Vyver to Rome in June, and while in the Eternal City received his degree of doctor of divinity from the propaganda, besides other marks of distinction, including four audiences with Pope Pius X.

Smith, one of the counsel for the defense of a number of the persons indicted for election frauds and irregularities in Richmond, yesterday, gave notice in the Corporation Court that he would demur to the indictment and attack the constitutionality of the law under which all the indictments were made, save those which were made under the Barksdale pure election law.

The Warrenton Virginian says. Mr. Inman H. Payne was paralyzed on one side, on Monday Sept. 25. He was visiting his daughter, Mrs. Crutchfield, in Hamilton, Montana, and while dressing he was suddenly taken ill. Happily his son, Mr. John Payne, who has been his father's constant attendant for years, was present and rendered all the aid in his power. A letter has come every day to Mr. H. I. Hutton, of this place giving Mr. Payne's condition, which remains unchanged. He has been in an unconscious condition since he was first stricken.

Wythe Blakey, of Richmond, who was found lying near the Pennsylvania Railroad tracks a short distance from Springfield, Md., early yesterday morning, died later at the Emergency Hospital, in Washington. When Blakey was found by the track walkers he was unconscious. He was bleeding about the head and was mangled about one of his arms. He died without having regained consciousness, his death being due to a fractured skull and internal hemorrhages. Blakey had left Richmond about a month ago to visit his wife in New York, and it is believed by the police that he was walking along the tracks toward Washington when he was run down by a train.

### Passed Over Weaver's Veto.

There was another skirmish in the Philadelphia City Councils yesterday between the forces on the side of Mayor Weaver and those supporting the republican organization over the matter of increasing the city's debt $6,000,000.

Two weeks ago both branches of councils passed an ordinance authorizing an increase in the city's debt of $4,000,000 for the removal of railroad grade crossings and another authorizing an increase of the debt $2,000,000 for street paving. Yesterday Mayor Weaver vetoed both bills. His reason for not approving the grade-crossing bill was that he is still negotiating with George F. Baer, president of the Philadelphia and Reading Railway Company, on the matter of removing the dangerous crossings and that no definite estimate of the cost could now be made. He disapproved of the passage of the other measure because the city is not now in a position to increase its borrowing capacity $2,000,000 for street paving alone. The Mayor also made the point that the city ordinances were not passed legally.

When the vetoes were read in councils, they provoked a long and sharp debate, with the result that Common Council passed both bills over the Mayor's veto by the necessary three-fifths veto, while Select Council sustained the veto on the paving bill, but passed the grade-crossing bill over the Mayor's disapproval.

Under the laws governing the municipality the grade-crossing bill now goes to the people, who must approve the measure by vote before the city's indebtedness can be increased.

### Attempt to Steal Jewelry.

In broad daylight and with hundreds of people on the street, Louis Brown, a negro, made an attempt to rob a Maiden Lane New York jewelry store of $2,000 worth of gems yesterday. His attempt was frustrated by Oscar Windorf, a clerk who grappled with the would-be thief, and who was stabbed by the negro during the fight. Brown is a carrier for jewelry salesmen. Yesterday he entered the store of Cross & Beguin and asked to see some jewelry. Windorf noticed the negro put a tray of jewels under his coat and immediately seized him. Brown drew a knife and slashed the clerk until he finally got free. A chase of several blocks followed, Brown swinging right and left with his weapon as he rushed through the crowd. He was finally captured by a police officer, whom he attempted unsuccessfully to stab. Windorf was not seriously injured.

I have also found them of great benefit in general debility and nerve trouble, and kept them constantly on hand, since, as I find they have no equal." E. S. ## Today's Telegraphic News.

### Arrest of Explorer.

London, Oct. 6.—The famous New Guine explorer Kerry was arraigned yesterday in the Bow street police court, on the charge of stealing prayer books, bibles, and other property of a mission. It is alleged that he induced officials of the mission to collect various presents for South Sea Islanders, to whom he was going on an exploring expedition in his yacht, the Pandora, on a commission from the Admiralty. The mission officials sent 39 packages of goods aboard the yacht. These included cocoa, brandy, and large quantities of devotional literature. Kerry threw most of the literature overboard before leaving the Thames river, and he bartered away many of the other gifts, as alleged, with the natives of Tristan D'Acuhana. A barge full of the cocoa, which had been presented to him as a gift, was sold at St. Helena. While disposing of the goods in this way, Kerry sent glowing accounts home of the gratitude displayed by the natives to whom the gifts had been given. Another charge made against Kerry is that he had a cabin boy on board his yacht dressed as a girl. Many well known English philanthropists sent contributions to Kerry, among them being the Duchess of Bedford. After the case had been presented against the explorer, he was remanded for further hearing.

### Municipal Ownership.

New York, Oct. 6.—That municipal ownership of public utilities is a living question in American politics and is apparently destined to come prominently to the fore as an issue in municipal campaigns all over the country, was demonstrated last night when the democratic city convention, held in Carnegie Hall, declared unequivocally in favor of the proposition. Municipal ownership will be forced to the front of the democrats in the city campaign just opening, as the "paramount issue". The renomination of Mayor McClellan for another term is in itself a step toward carrying out the declarations of the platform, in as much as, during his present term, the first steps in this direction have been taken in the purchase of the Staten Island ferry and the plans have been made for the erection of a municipal lighting plant. The republican leaders of New York are also on record as favoring municipal ownership, so that the question is bound to play an important part in the campaign. In accepting the nomination Mayor McClellan took occasion to make his position as favoring this programme clear.

### Duchess Consuelo Bets on Race.

New York, Oct. 6.—The Duchess of Marlborough and suite visited the races yesterday and occupied a box at the club house. She was accompanied by Colonel G. B. M. Harvey. Her Grace was the centre of attraction, gowned in a smart tailor-made suit, the striking feature of which was a loud yellow English check pattern. The American Duchess looked charming, and entered into the racing with zest. She had not been on the grounds five minutes before she had commissioners at her elbow. She bet Commissioner "Skater" Reynolds a $5 note on Paul Jones in the Steeplechase, on the suggestion of Mrs. T. Hitchcock, wife of the owner. "I'll bet you a pounder on Paul Jones, Mr. Commissioner," pertly declared her Grace, addressing Reynolds. Then, bethinking herself, she cried after him.

"You know; I mean $5!"

Then to bystanding friends she said: "You know, I thought it was at Epsom."

The Duchess stood to win $10. She lost, however, as Paul Jones fell.

### Mysterious Case.

Chicago, Oct. 6.—Irene Klatow, ten-years-old, died yesterday in the home of Dr. Oliver Hart, 38 Rogers Park, under circumstances which have led to a police investigation and which the coroner will take up today. Preceding her death, the girl had been unconscious several hours, and the police advanced the theory that she died from poisoning, whether taken accidentally or administered they have not yet determined. Hart was found also unconscious in a room adjoining the girl's bedroom. He has not yet regained consciousness.

### Fire from Crossed Wires.

Baltimore, Oct. 6.—The crossing of an electric light wire over a telegraph wire last night about 7:30 o'clock caused a fire in the distributing box on the pole at North street, leading to the Western Union Telegraph Company. The blaze was extinguished by the firemen but not until it had done damage enough to stop all messages from the North and South. A force of experts were put at work at once, but the service was not restored until this morning.

### Reopening of Suez Canal.

Suez, Egypt, Oct. 6.—Steamers are now entering the Suez canal, after the interruption of traffic which was necessitated by the blowing up of the British steamer Chatham, which was sunk with its cargo of dynamite recently to prevent the fire which had started on the vessel from reaching the explosive. Over fifty vessels are waiting here to pass through the canal.

### Collapse of a House.

St. Petersburg, Oct. 6.—A large house in Metschenekaya street collapsed today, burying all the inmates. Seven persons have been dug out of the ruins, so far, and all of them are seriously injured. It is believed that seventy persons were in the house at the time it collapsed, and it is feared that many of them have been killed.

### Postoffice Robbed.

Clintonville, Conn., Oct 6.—The postoffice was entered by cracksmen last night and $1,000 worth of stamps and some loose change taken. The burglars used blankets for covering the safe, which was blown open with some powerful explosive. It is believed that the thieves escaped on a freight train.

### The Insurance Investigation.

New York, Oct. 6.—Robert H. McCurdy, general manager of the Mutual Life Insurance Company, was the first witness in the legislative investigation of insurance matters this morning, after Cornelius C. White, of the New York Life Insurance, had taken the stand a moment to explain an apparent discrepancy in former testimony given by him, to show that the $476,000 paid by the New York Life to "Judge" Hamilton included a payment of $75,000, which was made on account of Hamilton's services in recovering taxes for the New York Life. Mr. McCurdy said the office of General Manager was created about 1887. He could not remember the salary paid the incumbent of that office before he became General Manager. The finance committee, he said, fixes the salary of the officers. He said as a member of the finance committee, McCurdy's salary had not been changed in the two years he has been on the committee. He did not know what President McCurdy's salary is, and had never known. He did not even know if anybody knew how much salary President McCurdy draws. The company, he said, has several general agents. In parts of the country where there are no general agents, the business is handled by salaried agents, who get a salary and commissions on first year business. The salaries range from $2,400 up to $10,000. The only agent drawing $10,000 is located at Chicago, and has Cook county for his field. He receives 1 per cent. on all new business. McCurdy could not tell how much this amounted to. All contracts with agents are made by the year. Mr. Hughes quoted the law showing that all agreements or contracts for remuneration with any officer, salaried employe or trustees of an insurance company shall be for no longer than one year. Mr. McCurdy said he did not know of any agreement of this character which had been made for longer than one year.

### Witte's Political Enemies.

St. Petersburg, Oct. 6.—Former political enemies of Count Witte are forming a cabal against the peace envoy, which has for its purpose the counteracting through intrigue of the newly gained influence which Count Witte has with the Czar. Leaders of the zemstvoists and powerful promoters of the douma, the new national assembly, including men like Count Solsky, are uniting forces to accomplish this end. They are taking the stand that the credit for bringing the war to a termination at the Portsmouth conference belongs entirely to the Czar, and that the part played by Count Witte was little more than that of of a clerk, who carried out his master's orders. Owing to the opposition which has developed to Count Witte his chances of being made premier of the proposed new council of ministers are regarded as waning.

### To Use Coercive Measures

Birmingham, Eng., Oct. 6.—The Post states that it has good authority for saying that communications have been exchanged between the English and French governments as to the advisability of employing coercive measures to compel the Sultan of Turkey to assent to the scheme for international control of the finances of Macedonia. While this subject is under consideration, the steps to accomplish the end desired are being taken with great reluctance, owing to the disinclination of the governments mentioned to employ coercive measures while there are so many troubles in the Caucasus, the Balkans and Austria-Hungary. The Sultan's rejection of the proposal for international supervision of the Macedonian finances, however, has created a situation where it is hardly possible to postpone coercive action much longer.

### Affairs in Hungary.

Vienna, Oct. 6.—A telegram received here from Buda-Pesth says that the Hungarian parliament will dissolve on October 20, and that new elections will be held immediately following. The Fejervary Cabinet will be reappointed to office, according to the programme outlined, but the ministers will not attend the sitting of the parliament on next Tuesday, fearing a hostile demonstration on the part of the members. The methods of passive resistance offered by the opposition in refusing to pay taxes until their demands are allowed, are embarrassing the government seriously. The tax receipts at Beda Pesth since January are over 8,000,000 crowns under the average payments.

### Suit Case Mystery.

Boston, Oct. 6.—Late last night a blood stained bag was found in the Lynn marshes which the Winthrop police believe may be a clue to the suit case mystery. It was discovered at a spot where a man was seen carrying a heavy dress suit case on the afternoon of Thursday September 21. It is believed by the Winthrop police who were searching the marshes, that this man had already disposed of the case containing the torso and was then disposing of the head and limbs of the suit case victim. Today a thorough search of the marshes will be made in the belief that somewhere in that vicinity can be found the missing head and limbs.

### Prince Charles to be Offered Throne.

London, Oct. 6.—Advices to the Pall Mall Gazette state that negotiations are proceeding apace for the conclusion of an agreement between Norway, Sweden, and Denmark. As soon as Sweden approves of the programme for the dissolution of the union between Norway and Sweden in accordance with the Karlstadt agreement, it is expected that Norway will immediately approach Denmark with an offer of its throne to Prince Charles. It is confidently expected that he will accept the throne and that no disapproval of this action will be expressed in any quarter.

### Yellow Fever.

New Orleans, Oct. 6.—Up to noon today ten new cases of yellow fever and two deaths from the disease were reported.

### Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by Gibson & Timberman and W. F. Creighton & Co.

### Cave-in and Loss of Life.

Troy, N. Y., Oct. 6.—Fourteen men are thought to have lost their lives this morning in the cave-in of the quarry of the Vermont Slate Company, which is situated about 2½ miles from Granville, near the Delaware & Hudson Railroad. The disaster occurred without any warning.

J. B. Williams, president of the company, who was standiug on the edge of the quarry, and foreman Warren Queen, David Cadwallader, and some Hungarians were covered up with the earth. Mr. Queen was not buried deep, and was rescued shortly after the accident, but Mr. Williams was killed.

### August Belmont's Condition.

New York, Oct. 6.—At the Memorial Hospital it was stated this morning that the condition of August Belmont, the well known financier, who was operated upon yesterday for appendicitis, was good. The patient, however, passed a rather restless night, but this was expected by the physicians in attendance considering the nature of the operation.

Following a consultation of the physicians attending Mr. Belmont this morning the announcement was made that the patient was entirely satisfactory. No unfavorable symptoms, it was added, so far, appeared.

### Massachusetts Republican.

Boston, Oct. 6.—Curtis Guild, jr., of Boston, present Lieutenant Governor was unanimously nominated for Governor by the republicans in the State convention here today. The platform adopted strongly endorses President Roosevelt's administration. The tariff plank was the subject of some discussion. The plank seems to have satisfied nearly everybody, as, when a vote was called for, there were only two or three votes recorded in opposition.

### Brakemen Crushed.

Pittsburg, Pa., Oct. 6.—Joseph P. Page, aged 26 and E. G. Quinliven, aged 29, were both horribly crushed between freight cars early this morning in the Pitcairn yards of the Pennsylvania railroad, where they were employed as brakemen. Both men died instantly. Cars were being shifted, making up a train in the yards. Just how both men happened to be caught between the cars at the same place and time, is not explained.

### New York Stock Market.

New York, Oct. 6.—The stock market this morning was left to a great extent to take care of itself. Prices sustained moderate declines in the first hour. There was good buying all around the room on every concession in price, and no uneasiness was expressed in any quarter over the market position. The money situation was closely watched and developments in the money crowd were regarded with great importance. Canadian banks loaned some money at 6½ and 6¾ per cent., but the loans later were all made at 7 per cent. or higher.

### TELEGRAPHIC BREVITIES.

The United States officers were today at Montreal handed the signed warrant for the removal of Gaynor and Greene. It is likely that the accused will start for Georgia tonight.

Business in the New York financial district came to a dead halt at noon today, when fifty thousand people in a hot search for "Raffles," of the New York American, who is defying the whole city to catch him, crowded Wall and Broad streets, and brought traffic to a stop.

An earthquake shock, which lasted for two seconds, was felt in Bologna, Italy, this morning.

### Steamship Lines to Russia.

Dispatches from St. Petersburg saying that the Department of Merchant Marine will establish steamship lines between Russian ports and the United States attract considerable interest in shipping circles. It is understood that two separate lines are contemplated. One line will be established between St. Petersburg and New York, making stops at Libau and Stockholm, while the other will be a route from Odessa to New York, with stops at Constantinople, Piræus and Naples. Shipping men point out that this line would immediately find profitable business in the transportation of emigrants. As understood the line is to be composed of ships of the International Mercantile Marine fleet, and Russia is to guarantee the interest on the necessary bonds.

### Cost of Public Printing.

Four of the six members of the joint committee to investigate the cost of public printing met in Senator Platt's office in New York yesterday. Those present, besides Senator Platt, were Senator Arthur P. Gorman, of Maryland, and Representatives Frederick Landis, of Indiana, and J. P. Perkins, of New York. The absentees were Senator S. B. Elkins, of West Virginia, and Representative J. M. Griggs, of Georgia. It was decided to appoint a subcommittee of three of the joint committee to go over the work already accomplished and to prosecute future work, Senator Platt, chairman, appointed this subcommittee: Representative Landis, chairman; Senator Gorman and Representative Perkins.

### Japan's Big Debt.

Former Foreign Minister Okuma, leader of the Progressive party, before the Tokio Associated Chambers of Commerce yesterday, referring to the sudden expansion of Japan's finance, said that when the withdrawal of the troops is completed she will find herself confronted with a debt of $1,250,000,000, the interest on which alone, roughly speaking, will be $75,000,000, or nearly twice the revenue of the country 10 years ago.

The per capita rate of taxation before the war was $2. Now it is $6. The per capita share in the national debt before the war was $6. It is now $25.

### Woman Arrested.

Some excitement was caused in the southeastern section of the city late yesterday afternoon by two women who were seated in a buggy and driving the horse in a careless manner. Officer Nicholson approached the couple and attempted to remonstrate with them, but they treated him with contempt and drove away too fast for the officer to overtake them. The behavior of the women brought many people into the streets, and a wheel of the buggy coming off their performances were brought to a sudden standstill. The horse became detached from the vehicle and started in a northerly direction through the street which caused a panic among women and children who feared they would be run over. Officer Nicholson had in the meantime reached the damaged buggy and seeing that one of the women was intoxicated took her into custody and with his prisoner started to the station house with the other woman following. Upon the arrival of the trio at the station house the woman under arrest manifested the greatest indignation. She gave her name as Etta G. Shields and said she lived at Braddock Heights. She termed her arrest a highhanded outrage, and swore that she would not only make the city pay damages for the indignities heaped upon her, but would avenge herself upon the policeman if she had to sell all her property. Mrs. Shields, in an excited manner and weeping, told Chief Webster that with a young woman visitor from Washington, who accompanied her, but whose name she refused to divulge, she was driving through the First ward when a wheel came off of their buggy. The accident, she said, drew a large crowd. She vehemently denied that she was intoxicated. The woman first declared that she would not deposit collateral and dared the officers to lock her up, but she finally relented and left $5 for her appearance this morning. The horse which had been secured, was held by the police. According to statements of witnesses the women drove the horse on Battery Rodgers hill and in attempting to turn the buggy capsized it. Four dozen empty beer bottles and some gin were found in the vehicle.

The women failed to appear in the Police Court this morning and the collateral was forfeited.

### School Board.

At the monthly meeting of the City School Board held last night there were present Messrs. Thompson, Stabler, Yates, Ramsay, Thomson, Jones, Carne, Carter, Smoot and the Superintendent.

In the absence of the chairman, Mr. Thompson presided.

The finance committee reported adversely on the resolution offered at the last meeting to direct the clerk to issue written obligations of the board to certain teachers, and the report was adopted. The same committee also recommended a postponement of consideration of the resolution to change section 7 of the by-laws and the report was adopted.

Mr. Stabler reported that some minor repairs had been made to the buildings since the last meeting.

The request of Miss T. E. Slayton for permission to enter her neice from Pennsylvania in the public school, was declined, as it was contrary to the school laws.

The Superintendent reported that the issuing of permits to children to attend the schools had been commenced on September 11, and continued during that week, and that the schools had been opened for study on the 18th—the day appointed by the board. The enrollment at the close of the month, was 518 white boys, 570 white girls; 264 colored boys and 316 colored girls, not quite so many as at the opening last year, when there were over 1,100 white pupils enrolled during the first month. He also reported that all the teachers had been present each day during the month.

Mr. Yates moved that the monthly teachers' meeting be held on Friday evening instead of Saturday morning and allow the teachers a half holiday on the day of meeting. After some debate the matter was referred to the committee on studies and discipline.

### Bank Robber Convicted.

Robert Cassaday was convicted in the Circuit Court of Prince William county yesterday of robbing the National Bank of Manassas on the night of November 11, 1904, and sentenced to five years in the penitentiary. Cassaday was arrested with a gang of alleged bank burglars near Baltimore, and he, with three others of the gang, was taken to Manassas for trial, the cases of Fitzpatrick and Smith having been continued until the December term. The defense put three witnesses from Wilmington, Del., on the stand to prove that Cassaday was in that city on November 11. Among the witnesses was Peter Cassaday, a brother of the prisoner, and John Purcell, a police officer of Wilmington. Witnesses for the commonwealth testified that they saw the prisoner in and near Manassas on that date, and the jury elected to accept the testimony of home people. Richard Burnett, of this city, was one of the witness for the prosecution. Cassaday was convicted solely upon circumstantial evidence.

### Police Court.

The following cases were disposed of this morning:

Bessie Keys, colored, arrested by Officer Bell charged with assaulting and beating Susan Tate, was fined $10.

Oats Berry, colored, arrested by Officer Young charged with assaulting Lorenzo Chase, was fined $5.

Hillary Johnson, colored, arrested by Officer Nicholson charged with assaulting James Hopkins, was dismissed.

Etta G. Shields, arrested by Officer Nicholson for disorderly conduct, forfeited her collateral by failing to appear.

James Hopkins, colored, arrested by Officers Smith and Bettis charged with assaulting John Williams's child, was fined $5.

James Peterson, colored, charged with assaulting Rufus Robinson and William Jackson, was fined $15.

Mrs. A. DeK. Shattuck and sister, Miss Louise Armstrong, have returned from a sojourn at Falls Church and are now at their home, No. 224 north Royal street.

### Concert.

The concert last night given at the Opera House for the benefit of Grace Church organ fund under the management of Mrs. O. F. Carter, was not as well patronized as had been hoped for, but those who were present were appreciative and evinced their pleasure in rapt attention and awarded a due measure of applause to each of the numbers on the programme which, as is usual with Mrs. Carter's efforts, was a decided success. Solos were splendidly sung by Miss Myra Civalier and Miss Eichberg, Mrs. O. F. Carter and Miss Lelia M. Steiner played a duet on two pianos; Mr. J. Harris Franklin sang a barytone solo. Miss Flora Bernheimer and Mr. Wm. Scantelbury, jr., appeared before an Alexandria audience for the first time and were most cordially received. There were many other attractive features.

### Shot at Colored Man.

Some excitement was created in the extreme southern portion of the city this morning by a difficulty which took place between Harry Simpson and a colored man named Bruce Haley, who lives at Spring Bank, Fairfax county, a short distance below this city. During the trouble Simpson produced a pistol and discharged it at Haley. It seems that the two men had had a previous difficulty which was renewed this morning when they met. Haley, it is alleged, struck Simpson, after which the latter fired his pistol at the darkey. Later Simpson was taken into custody. It is said that the trouble originated in Haley resenting Simpson's conduct toward his wife. Simpson was released on collateral for appearance in the Police Court tomorrow.

### Opera House.

The West Schuylkill Press, of Tremont, Pa., has the following to say of the R. J. Tempest Dramatic Company, which will play in this city all next week: "The Tempest Dramatic Company opened the theatrical season in Union Hall on Monday night and continued every night of the week. The Tempest Dramatic Company is first-class in every particular. Their productions are all of a high character and persons of the most refined tastes can find nothing objectionable in any of their performances. Wherever this troupe appears they leave a good impression. They carry the finest scenery and handsomest costumes. Tremont would be glad to greet the frequent appearance of dramatic troupes of the character of the Tempest Dramatic Company."

Returning to Washington, dinner will be served at the Ebbitt House at 6:30 p. m.

### An Unbearable Nuisance.

Attention was called a few days ago to a nuisance which has existed within the market enclosure near Market alley for years, and which is becoming more pronounced daily. A stifling stench emanates from the sewer trap at that point, caused by the junction of the station house sewer and the drainings from the first market. Something should be done at once to eliminate this nuisance.

### Democratic Committee.

The city democratic committee will hold a meeting at the Hotel Fleischmann at 4:30 o'clock this evening to make final arrangements for conducting the primary on Thursday next to nominate a candidate for the clerk of courts. It is understood that the same rules that governed the primary held on May 29, last, will be adopted for the government of next Thursday's election.

### Horse Killed.

A horse was run over and killed by a train on the Washington-Southern Railway last night. The animal had ascended the bank and made its way to the trestle over the Mushpot road near this city, where its feet had become wedged. The train struck the animal and cut off all four of its legs. The name of the owner of the horse could not be ascertained.

THE NEW CITIZENS' NATIONAL BANK.

The structure for the Citizens' National Bank of Alexandria, which is now receiving the finishing touches to mark its completion, under direction of its architects, Jos. Evans Sperry, of Baltimore, and builders, Messrs Richardson and Burgess, of Washington, stands on the site of former well known business houses at the northeast corner of King and St. Asaph streets.

The building has a cellar basement constructed over a concrete of broken stone and cement, while the foundation walls of the bank are massively built of red brick and cement, overlaid near the frost line by a substantial light colored granite base which is overtopped by a surbase or dado of tooled limestone. In the basement are handsomely fitted a "leisure minute or lunch room," for the bank attaches. The heating apparatus which is to supply the building with heat by hot water circulation, which was installed by Mr. Wm. H. McCuen, and the essential fuel bins are therein located. The superstructure, which is but one story high, shows an elevation of forty-four feet and is built of tooled coignes of Kentucky limestone, the spacing between being filled with light colored Roman tiles.

The facade is on the south, or King street, and presents to the eye a pleasing and an attractive appearance with its contrasts and shadows. The entablature is noticeable in artistic design with its architrave built in upon heavy corner pillars formed of coignes of tooled stone and reinforced toward the centre by two engaged massive stone columns of Ionic design between which is the only doorway to the building, and it is built entirely of stone, the pediment being supported by two handsomely chiseled consoles, while the arched transom is finished by a well designed bracket keystone.

On each side of the doorway between columns and pillars is a spacious window protected by iron mullions. Above the east window is a large stone medallion upon which is chiselled the U. S. coat of arms and motto, "E Pluribus Unum," and over the window to the west is the Virginia coat of arms and motto, "Sic Semper Tyrannis." In the frieze cut in large letters is "The Citizens' National Bank." The projecting metal cornice is supported by numerous modillions and the four gabled tipped roof is covered with Spanish tile of greenish gray tint. The west, or St. Asaph street view, presents heavy corners as pillars, and two proportioned pilasters and three windows, one of which is notably spacious. Above each of the two smaller windows is a stone medallion bearing the respective inscriptions: Incorporated, 1870; Erected, 1905. The north view is unobscured and the outlines of the president's and directors' rooms which are there located are plainly visible.

The east side has large grated windows opening upon a wide areaway that furnishes light and air and are protected by metal shutters so that, isolated as it is from other buildings, it may be considered as near as possible fireproof.

The interior floor surface is about 42x43 feet and is concreted and overlaid with white marble tiles. The walls, which are white, are laid off in blocks by means of tuck joints, which give the appearance of having been built of stone coignes, and the ceiling is heavily panneled with massive mouldings interspersed with effective rosettes or soffits while the entire scheme is enriched by an elaborate cornice formed of modillions, mouldings, fretwork, and arabesque, all constructed of white plaster and in the construction of which more than two tons of metal were used for the supporting moulds and anchors. The vault, the entrance to which is in full view, is built upon the most modern principles and is as near fire and burglar proof as it is possible for one to be made by material and mechanism.

The massive revolving doors of the building are of the Van Kannel make. The arrangements for lighting are of the latest pattern, and the structure having been wired, it can be illuminated with either electricity or gas. Several hundred safety deposits for the use of depositors have been placed in position and on the right and left of the entrance booths have been constructed for the accommodation of ladies. These have been furnished with mahogany desks and every other convenience. In the northeast corner a room has been reserved and fitted up for the use of patrons where their safety boxes can be examined in privacy.

Alexandria workmen have, in as large a measure as possible, been employed in the construction of the building.

The business of the Citizen's Bank will be removed to the new building on Monday next. The present officers of the bank are: E. L. Daingerfield, president; William H. Lambert, vice president; William F. Lambert, cashier; E. L. Daingerfield, Wm. F. Lambert, M. A. Aheru, Worth Hulfish and W. F. Lambert.

All these gentlemen have been for years well-known in the business circles of Alexandria.

**TUMORS CONQUERED**
SERIOUS OPERATIONS AVOIDED
Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

The growth of a tumor is so sly that frequently its presence is not suspected until it is far advanced.

Mrs. Fannie D. Fox

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse menstruation, accompanied by unusual pain, from the ovaries down the groin and thighs.

If you have mysterious pains, if there are indications of inflammation or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. Pinkham, of Lynn, Mass., will give you her advice free of all charge if you will write her about yourself. Your letter will be seen by women only.

Dear Mrs. Pinkham:—

"I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my monthlies stopped. Shortly after I felt so badly that I submitted to a thorough examination by a physician and was told that I had a tumor on the uterus and would have to undergo an operation.

"Soon after I read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After trying five bottles as directed the tumor is entirely gone. I have been examined by a physician and he says I have no signs of a tumor now. It has also brought my monthlies around once more, and I am entirely well."—Fannie D. **A Cure for Consumption.**

Professor Behring, discoverer of the diphtheria serum, has made the following statement to the Paris Matin:

"In August next I will make known a new method for curing tuberculosis which I have discovered. It is neither serum nor vaccine. It is a remedy which is not only preventive, but curative. As I already did in the case of serum against diphtheria, I will reserve for myself for sometime the secret of this remedy. I will explain my method to everyone, as I have already done to Dr. Roux and Dr. Metschinikoff, of the Pasteur Institute, and will leave the test of applying it to the medical profession, but without revealing the nature of the remedy. I am of the opinion that I have the right to retain the profits of my discovery, as this will allow me to undertake later other investigations. That is all I can say now. Yes, I believe I have discovered a cure for tuberculosis. All I ask is that people will have patience until August. I have need of this delay before making my method known, but from today all sufferers can take hope."

**Masonic Hall at Kilmarnock.**

The cornerstone of Lancaster Union Lodge, No. 88, Order, of Ancient Free and Accepted Masons, was laid yesterday at Kilmarnock, with Masonic ceremony ceremony. The building, which had been completed several weeks ago and only needed the laying of the cornerstone, is by far the handsomest Masonic temple in Tidewater Virginia outside of a city, costing nearly $3,000. The address of the day was delivered by Grand Master Thomas N. Davis, of Lynchburg. The attendance was large. A sum of $1,630 was raised in 28 minutes.

**Could Not be Better.**

The uniform success of Chamberlain's Colic, Cholera and Diarrhoea Remedy has won for it a wide reputation and many people throughout the country will agree with Mr. Chas. W. Mattison, of Milford, Va., who says: "It works like magic, and is the best preparation I know of. It couldn't be any better." He had a serious attack of dysentery and was advised to try a bottle of this remedy, which he did, with the result that immediate relief was obtained. For sale by Gibson & Timberman and W. F. Creighton & Co.

**Faith Not Necessary.**

You may be just as skeptical and pessimistic as you please. Kodol will digest what you eat whether you eat or not. You can put your food in a bowl, pour a little Kodol Dyspepsia Cure on it and it will digest it the same as it will in your stomach. It can't help but cure Indigestion and Dyspepsia. It is curing hunereds and thousands—some had faith and some didn't. Kodol will cure you if medicine can cure you, whether you have faith in it or not. Sold by W. F. Creighton, & Co. 401 King street.

AN ORDINANCE to provide for the granting by the City Council of Alexandria, to the person or corporation hereafter to be ascertained in the manner prescribed by law, of the exclusive right to furnish electricity for light, heat, power and any other general purpose to the City of Alexandria and inhabitants thereof, and to erect, construct and maintain the necessary poles and fixtures and to run wires on, over, under and along the streets, public alleys, bridges, parks and other public ways and places in the City of Alexandria, for the purpose of supplying electricity.

Section 1. That there shall be granted in the manner prescribed in an act of the General Assembly of Virginia, approved May 20, 1903 the rights and privileges on, over, under and along the streets, public alleys, bridges, parks, and other public ways and places in the City of Alexandria, which are embodied in the following draft of an ordinance:

An Ordinance to grant exclusive right to ——, its successors and assigns, to furnish electricity for light, heat, power and any other general purposes to the City of Alexandria and inhabitants thereof, and to erect, construct, and maintain the necessary poles and fixtures, and to run wires on, over, under and along the streets, public alleys, bridges, parks, and other public ways and places in the City of Alexandria, for the purpose of supplying electricity.

Be it ordained by the City Council of Alexandria, Virginia:

1. That — —, its successors and assigns, be and they are hereby granted the exclusive right to furnish electricity for light, heat, power and any other general purposes to the City of Alexandria, and the inhabitants thereof, for a period of thirty years, and for the purpose of furnishing and supplying electricity for light, heat, power, and other general purposes they are hereby granted the use of the streets, highways and other public ways and places of said City, and are authorized to erect, construct, and maintain the necessary poles, fixtures, and other essential apparatus, to construct and maintain conduits, and to run and maintain wires on, over, under and along the streets, public alleys, bridges, parks and other public ways and places in the City of Alexandria, in order to furnish and supply electricity for light, heat, power and other general purposes to the City or to the inhabitants thereof, upon the conditions, provisions and limitations hereinafter set forth, as well as under these set forth in such ordinances of the City of Alexandria, as may be applicable thereto, and as are not in conflict with this ordinance and the amendments heretofore made or which may be hereafter made to such ordinances.

2. Each route shall be first determined upon by the City Engineer before any poles are erected, and the Committee on Streets may require the said ——, its successors or assigns, to use and occupy the poles already erected by any person or corporation before the running of wires along such route, provided that the City Engineer first deliver to the said ——, its successors or assigns, permission in writing from the owners of such poles already erected, to run and maintain other wires thereon, at reasonable rates to be fixed by agreement or arbitration. All wires run and all work done in pursuance of this ordinance shall be done in a good workman like manner and of material suitable for the purpose, at the time the work is executed, and shall be approved as such by the City Engineer.

3. The rights and privileges hereby granted shall continue for thirty years unless sooner forfeited as herein provided for, and upon the termination or forfeiture of this grant the entire plant, as well as the property of said ——, its successors or assigns, located in the streets, public alleys, or other public places in the city, shall become the property of the City Council of Alexandria, upon the payment to the said ——, its successors or assigns, by the City Council of Alexandria, of a fair cash valuation of said entire plant and property, but the said—— shall be entitled to no compensation by reason of the value of the franchise hereby granted. In the event of the City Council of Alexandria and the said—— its successor or assigns, being unable at least six months prior to the termination of this grant, or within thirty days after the forfeiture thereof, to agree upon a fair and just cash valuation of said plant and property, then and in that event, such valuation shall be determined by arbitrators, one to be appointed by the City Council of Alexandria, one by the said—— ——, its successors or assigns, and the third (in case of disagreement by such arbitrators) by these two arbitrators, or, in the event of the the two so chosen being unable, within twenty days after the date of the appointment of whichever of the two was last appointed, to agree upon a valuation, or failing that to agree upon a third arbitrator, the third arbitrator shall be appointed, by the then Judge of the Sixteenth Judicial Circuit of the State of Virginia, and the three arbitrators so appointed, shall proceed to establish a fair cash valuation of said plant and properties excluding the value of or any compensation for the franchise hereby granted, and upon the payment of the amount so established and fixed to the said — —, its successors or assigns, by City Council of Alexandria, the said plant and property shall thereupon vest absolutely in the City Council of Alexandria, and any expense incurred for compensation for the three arbitrators so appointed, shall be borne by the said——, its successors or assigns, and the said City Council of Alexandria, equally.

4. The City Council of Alexandria expressly reserves the right to impose other reasonable regulations, conditions and requirements upon the said ——, its successors or assigns and to pass such other ordinances as may be necessary to secure efficiency of public service by said ——, its successors or assigns, at reasonable rates, and to compel the said —— —, its successors or assigns, to maintain said plant and property of the said —— in good order throughout the term of this grant; and it is hereby expressly provided that for a failure to comply with any material provision of this ordinance or of any such regulation, condition, requirement or other ordinance, this ordinance may be declared forfeited by said City Council of Alexandria, and be repealed, and the franchise hereby granted be declared to be at an end, provided always that any such failure shall not have been made good by the said ——, its successors or assigns, within ninety days after written notification of such failure to said ——, its successors or assigns, provided always that any such failure resulting from the act of God, public enemy, strikes at home or abroad or from any other unavoidable accidents or events, shall not be deemed a ground for declaring the franchise, rights and privileges hereby granted repealed, forfeited or at an end.

And it is further provided that should the said ——, its successors or assigns, be compelled by virtue of any state or municipal law or ordinance to place its or their conductors or any portion or portions thereof under ground, that the City Council of Alexandria shall provide, at its own expense, the trench or trenches necessary for the burying of such conductors, said City Council bearing the entire expense and responsibility incident to the opening and closing of such trench or trenches and the proper relaying of the pavement thereby disturbed, and said ——, its successors or assigns, bearing the entire expense incident of the furnishing and placing within such trench or trenches or the underground conductors and conduits so required.

5. For failure to compiy with any material requirement of this ordinance the said ——, its successors or assigns, shall be liable to a fine of not less than ten nor more than one hundred dollars for each offense, each day's failure to be a separate offense, said fine to be collected as other fines are collected and paid into the city treasury. The imposition of any fine under this section shall not prevent a forfeiture under the foregoing section.

6. That the said ——, its successors or assigns, in the equipment of the poles, wires, fixtures or other works will use such appliances as are best designed to prevent injury by electrolysis to the water and gas mains and pipes or other public improvements of the city, and will pay to the City Council all damages to gas mains and pipes occasioned by electrolysis caused by the failure to use such appliances and will also indemnify and save harmless the City Council from all claims of damages occasioned to person or property growing out of injury from the failure to use such appliances.
